WEDNESDAY, APRIL 17, 1912.

ENGINEERING.

In comparing the estimates with those of the previous year, it must be remembered that we are now completing the four ship contracts which were let in 1910 and that these along with the four ships of what may be termed the then normal program will add to the amount of work on the construction vote of the financial year now closing. Unfortunately, all of the new contracts have been delayed, owing to delays consequent on labor difficulties, and for this reason, it is believed that the first two or three ships could be advanced as far as to allow longer time for such construction as the new contracts. Vessels, built by Messrs. Vickery and the Neptune, built at Portmouth Dock, the name of the Neptune was a special case, has been built within 25 to 28 months. This, it is true, is seven months longer than the best performance abroad; but in estimating date of completion, in order to be safe, it is believed that it would be well to make more adequate provision against delays owing to labor difficulties. It is believed that the same time all will recognize that it is well to defer as long as possible the buying of new machinery, unless there are improvements in machinery, armor, and armament may be adopted, thus far, probably, no one believes that the shipyards other than others began about the same time. The large shipbuilding vote of the current year has been so heavily loaded that ships to be commissioned, while others will be so well advanced that they will be available for delivery during the next twelve months apart from the two half-crisers, one each for the Arctic and the Pacific.

The ships nearing completion are the battleship King George V at Portsmouth, the Queen Mary at Rosyth, and the Audacious at Messrs. Cammell Laird's; while the battleships Prince of Wales, Prince Royal, at Devonport and Victoria respectively, will be commissioned very heavily laden are required. The battleships are progressing the last two. In addition to the vessels to be completed, six are to be fitted out at Rosyth, and the rest at Portsmouth, Marborough, Devonport, and Falmouth, each at Vickers, Barrow, at Derry, and at the shipyards of Queen Mary at Palmer's and Tiger at Brown's. In these cases also heavy damage has been suffered. In the case of the four large armored ships to be laid down completely, the cost will be enormous. These will not be commenced until an advanced date in the year, so that the expenditure on them in the first year will be small. Although £1,000,000 of the construction vote is for the ships of the new program, the half of this is to be for the 20 destroyers which are to be commissioned at once.

Vancouver Province.—The two great discoveries of the year—the South pine and the whorlstones of Dr. Beattie Neftel.

Ottawa, Ontario.—Several New York families have merged into a concern capitalized at \$1,000,000. Watered stock may perhaps be excluded in the boundary business.

Vancouver Province.—The staff in the provincial treasurer's office in B.C. will probably hesitate about carrying out their threat to go on strike as long as their money funds are in the corporation safe.

Mall and Empire.—A California woman who used to deliver the most delightful lectures on "The Home Beautiful" has been compelled to give up her hobby to get rid of her third husband. Neither lectures nor third husbands are ideal ingredients for a happy home.

Vancouver Province.—A prisoner in the Calvary court, charged with stealing oranges, pleaded that he took the fruit in his pocket because he was hungry. Further evidence disclosed that he was out feeding every wild animal in the city. He was sentenced to a federal prison for a short time, but was released on parole.

Montreal, Quebec.—We cannot refrain from asking the people of the West Indies whether they are really prepared to throw a market of nine hundred thousand dollars into the hands of a nation of nine million. For guidance in the settlement of this question they might do well to consult the member of the Legislature who is the author of the speech by Mr. Meers, Borden, Foster, White and others uttered during the summer of 1911.

Lethbridge Herald.—The taking over of the ferries, the improvement of the government, and so giving their users a freedom from tolls, is an act in itself with the up-to-date reformists mentioned. Allowing the bridges to remain open to the public is a family provider the court decided that his activities should be restricted for a time.

The introduction of all these stallions has been well received.

Capt. J. Caron, of the real estate firm of Malouf and Caron, has returned from Vancouver, and is back again to Vegreville after a short time before returning to the West with his family where we understand, as his firm has opened a branch office there.

Capt. M. J. Herbert of Pine Lake, has opened a branch office on Saturday.

## RED DEER.

Bulletin News Service.  
A very interesting feature in the news of the day is the assessment of the report of the assessor of the town of Red Deer, which was presented to the council yesterday.

The assessment this year is based on the full land value and permanent improvements, and the amount of land are assessed.

The total of the assessment this year is \$1,000,000, and it is expected to increase over that of last year, and are very likely to do so.

Land assessment ..... \$14,625,635

Personal property ..... 260,600

Less exemptions ..... \$4,287,525

Total ..... \$2,560,650

The assessment for 1911 was \$2,472,285.

The school assessment this year is \$1,000,000.

These figures are very gratifying and show the rapid manner in which the town is progressing.

It must be admitted, however, that these figures do not include North Red Deer, which is a large part of the West or West Park, residential subdivisions of the town, in which there are many houses built during the year, but which are not included in the town proper.

The figures for the first three months of 1912 show an increase of about 100 lots over the same months in 1911.

The business assessment for the month of March amounted to \$1,000,000 compared with \$1,250,000 for March, 1911.

In the Dominion land office the total receipts for the fiscal year ending March 31, 1912, were \$91,296.25, but the amount of land sold was \$1,000,000 over last year.

The revenue from paying lands last year was \$10,524, while this year it went up to \$12,100.

Owing to the rapid manner in which the Dominion land district has been settled there are now only about 2,000 quarters of land available to virgin timber.

The Young Men's Club, which is virginal, has now purchased the lot of the Methodist church here, and their annual banquet on Thursday evening will be a great success.

The gymnasium was used and looked like a picture, and the thing of the best was furnished, and the guests sat down at 7:30 to have a hearty meal after the meeting, toasting the toast was given: The Young Men's Club, Our Country, West, Robertson, Our Club, Mr. William H. Green, our Hunt, Mr. William E. G. John, Mr. G. G. Gaultier, Our Professional Interest, Mr. W. H. Green, Mr. R. K. McLean, Our Social Interest, Mr. H. H. Huxley, Our Educational Interests, A. W. James, Mrs. James, Mr. and Mrs. M. M. McFarlane, etc. Many of the speeches were very interesting, and though the evening was late in drawing to a close, every one was well spent.

James Farris of Grenville, Alta., who has been away for the past month, has just come home, and will be home again after spending the winter in California. Mrs. Farris will be a great addition to the Citizens band.

Mr. Nelson of Vernon, B. C., an ardent musician, arrived in Red Deer yesterday, and will be a great addition to the Citizens band.

The James Fox company, who were invited to give an entertainment in the theatre this week, were unable

to give it at the last moment owing

to trouble with the house manager.

We hope to see them return later and again.

The order of the day is clean your yard and beautify Red Deer by doing your share towards making the city of Alberta, and every citizen is doing his share toward it.

Red Deer, April 15.

## AROUND THE CITY

### LOCAL

A meeting of the Edmonton Medical Society will be held tonight at 8:30 p.m. in the Connell chamber. All physicians in the city who have not received notices to attend are cordially invited.

James Brodie, gas engineer, will leave Edmonton shortly for Winnipeg to study the effect of climatic and weather conditions. He will particularly study the effect climatic variation has on the distribution of gas in the prairie provinces.

George Currie, who was compelled of keeping a bawdy house at 15 Jamella street and fined \$250 by Magistrate Cowan in the police court yesterday, has been granted a stay of appeal through his solicitor, J. M. McDonald, from the decision of the magistrate which will be heard in the district court.

The waterworks department is progressing well and is now well up in work in its history. Already over 100 men have been secured to work the new plant, and it is expected that as many more have to be hired, in the neighborhood of \$300,000 will be spent on labor and materials. The connections, over double last year's expenditure.

The following building permits were issued yesterday: 16 Robertson, frame house on Kirkness street, \$11,000; Emerson Creel, frame house on 10th Street, \$10,000; C. Brovey, frame house on York street, \$2,000; Templeman Brothers, brick house on 10th Street, \$10,000; Mr. \$1,000; George Dickie, frame house on Twenty-seventh street, \$1,000.

The Hudson's Bay Company have exhibited a popular puzzle in the sale of their new store. It is said to be simply a game of chance and the first applicant may be the last to get the choice of the much sought after puzzle. The puzzle was exhibited May 14th, the day before the sale. Entry will be numbered out and the highest number of the day will be the rightest idea of what number he draws. On the following day the puzzle will be sold at the same price according to the number thus drawn. A special sale offer will be made to the first applicant and at the time the sale will be made.

**VERDICT FOR PLAINTIFF.** In the action brought in the supreme Court yesterday by Colin E. Tait and Hay T. Beals, trading as a bicycle, the proprietors of Linton's Cycle Shop, against Fred Thomas, Jr., plaintiff and defendant from Ennis, Texas, having sued him, the court awarded him \$100 damages and costs. The court, however, held that the plaintiff had been the subject of a practical joke.

Judge Taylor said he would like some inquiries made into the possibility of the plaintiff's claim being true.

The date of the theft was April 1st, and it seemed possible that the plaintiff had been the subject of a practical joke.

His honor remanded the accused to trial, but further inquiries might be made.

### DEATH OF J. H. CADOGAN.

A well known citizen of Edmonton died yesterday in the person of J. H. Cadogan, aged 49 years. Death was due to a complication of diseases, the exact cause of which he had been suffering for some time. His wife, who was very aware of his serious illness, the late Mr. Cadogan came to Edmonton about two years ago to be agent here of Mr. Alan G. Bell, of London, England, the British Home Office. He was very highly connected in the old country, and was a classmate of Sir Winston Churchill. He was also a classmate of Lord Hugh Suffolk. He died at one time during his residence in England at the age of 20.

He was a friend of a great many of the leading men of England. He was a member of the Royal Horticultural Society, and carried on a market gardening business just outside of what was formerly called Gardiner's Corner. In his chosen line of work he was almost unequalled. He was a man of great nature, and last year carried off no less than the title of "The Great Gardener". He was a valued member of the Edmonton Club. He has no relatives in the old country. The body is at McCoppen and Lamberton's undertaking parlour pending arrangements.

**SUSPENDED SENTENCE.** The identity of a ready-made overcoat was a point which Judge Taylor was called upon to decide in the trial of a man charged with breaking and entering into the office of Robert L. Head for breifs of a partnership. The court, however, found for the plaintiff and awarded damages to the extent of \$100 and costs. The defendant was sentenced to six months in prison.

The court, however, suspended sentence, and the defendant was given a chance and was taking the machine when a

Judge Taylor said he would like some inquiries made into the possibility of the plaintiff's claim being true.

The date of the theft was April 1st, and it seemed possible that the plaintiff had been the subject of a practical joke.

His honor remanded the accused to trial, but further inquiries might be made.

**Charleston Navy Yard Picks Up Wireless Message Saying Only Survivors are Aboard Carpathian**

## OTHER RESCUE SHIPS ARRIVED TOO LATE

**LATER DISPATCHES CONFIRM EARLIER REPORTS OF THE APPALLING LOSS OF LIFE**

New York, April 16.—The White Star liner announced early yesterday that they had received positive news that the number of survivors on the Carpathian was 183. This dispatch was sent to the White Star Line by the Olympic, which is understood to be in wireless communication with the steamer, though the ship would not be yet in position to send all his wireless report to the London office.

**SOME PASSENGERS MAY HAVE CHANGED SHIP**

Officials of the White Star company said that as far as they know every passenger who was on board the liner cable to New York yesterday saluted on board the Titanic. The liner was reported to have changed its mind at the last moment, but at the offices up to the date of the disaster no indication has been heard of. As a matter of fact they were known to the port of the Titanic.

**CARPATHIAN DISCOVERS ONLY SURVIVORS**

The appalling magnitude of the wreck of the giant liner has been increased by the latest reports which filtered in yesterday.

The rescue steamer Carpathian has 886 survivors on board, according to the latest news from the news of the White Star line in this city. It increases the list made by the White Star line itself, but except for this favorable detail are incomplete, according to the sources that have been heard. The Carpathian is at the bottom of the Atlantic and that the shattered wreck took with her about 1,350 victims to their death.

The first reports giving the total survivors at 675 were varied by the White Star line itself yesterday, first from Captain Rostron, the Carpathian, who gave that figure, and later, also, by the positive announcement of the White Star line that there were 886 survivors of the disaster.

But with these revised figures there remains 1,341 persons, passengers and crew, on the Titanic who are unaccounted for.

**STORY CLOUDS UPON THE WORST**

Now April 16—the day before an all night visit, during which scattered and isolated Marconigrams came in, from the White Star line, the Allan line and other officials are this morning prepared to admit the worst.

Another message from the Carpathian said that it was practically appealed at 11 o'clock when the Sable Island wireless station reported that the last survivor was still on board, and when the offices of the White Star line were asked to count the survivors, it was found that 261

were accounted for.

During the morning lower broadway in front of the White Star line was crowded and police forces were called out to control the crowd.

The Canadian having on board the one survivor accounted for, is coming slowly to New York.

At hand for details of the tragedy and its effects are centered on the ship.

**VIRGINIAN TOO LATE**

**TO BE OF SERVICE**

## PROVINCIAL STOCK SHOW OPENED AT FAIR GROUNDS

Brilliant sunshine and glorious spring weather greeted the opening of the Provincial stock show yesterday. Exhibits of classy horses are here from the three western provinces and the attendance of spectators should be large tomorrow to see the parade of prize winners.

There is an especially large exhibit of stallions.

Among the horse-lovers at the grounds yesterday were many prominent men from the west and province. In the morning judging of the light horses was finished and a start made on the heavy horses.

The judging of the Percherons and Belgians was continued in the afternoon.

The first prize was won by Hughie, a 3-year-old gelding, which "was sired by Barron's Prince of Scotland, imported by Graham Bros. of Charlottetown."

The second prize was won by John Gandy, a 3-year-old gelding.

**What do you do with your Money?**

Pardon us if we may appear impudent—it is not our intention—on the contrary we are solicitous for your welfare. Money used wrongly is criminal, but used carefully and judiciously is of much benefit and a blessing. Follow us for a minute and we may be able to help your line of thought.

**What we do with Ours!**

We do not claim any particular ability to spend money correctly, but we used ours in wise investments in property adjoining the land purchased by the C.N.R. where it is generally believed the company will erect their round house and shops. Don't you think this move a good one?

**What you should do with Yours!**

Now sir; allow us to suggest. Tomorrow will witness the opening of our sale of **International Park**, the property whereon hundreds of railroaders will make their homes in order to be close to their work--necessity demands this. ## EDMONTON PEOPLE MAKE INQUIRY FOR FRIENDS

Scores of Edmonton people besieged the local offices of the Grand Trunk Pacific Railway, asking whether relatives or friends had taken passage from England on the latest steamer. Many of the callers had friends who had intended to sail, but had not done so. They had taken passage on the new ship. It is not known whether the passengers had been on board, as the names of the passengers were not known. The company endeavored to secure the passenger list, and all that could be learned had been from the agents. It is not known if any of those saved.

Mr. W. Fortune, 315 Seventh street, is a brother-in-law of Mrs. Wilkie, and among those reported saved. It was learned that Mr. Fortune's home was in the United States, and he had been with his wife, three daughters and son, and his mother, and had sailed on the Titanic. Whether or not the father and one son were lost is not known. The amount of loss in the terrible catastrophe remains to be determined.

The great marine disaster of all time has made a profound impression on the people of Edmonton. All day long, and all night long, inquiries have been made as to the extent of the tragedy. Many of those who came to the station were anxious to know if their friends on the vessel were among the survivors.

At ten o'clock this morning the Grand Trunk Pacific officials, Mr. Hayes, president of the Grand Trunk, and Mr. Hayes, manager of the office here, had a conference with the agents, and the friends on the vessel and were anxious to know if their friends were among the survivors.
